

Rhino PlastiCurve™

100% Recyclable

The Rhino PlastiCurve is made of an engineered plastic that is so durable it will withstand repeated vehicle impacts and snap back into position.

UV Stable

UV stabilized to hold up to years of outdoor exposure.

Temperature Stable

Unaffected by cold weather or extreme heat.

Lightweight

Each 66" Rhino PlastiCurve weighs only 2 lbs. This makes the Rhino PlastiCurve easy to handle and inexpensive to ship.

Durable

The combination of our engineered plastic and the curved design allow the Rhino PlastiCurve to bend over and snap back up if hit by a vehicle or animals.

Colors

Standard colors include orange, yellow and red. Custom colors and lengths available with a minimum order. Call for details.

Lengths

Standard lengths are 62", 66", and 72". Custom lengths are available with a minimum order. Call for details.

Decals

A marker posts primary function is to support a warning message that will prevent an excavator from digging without calling for a locate. Our standard color fast decals use sharply contrasting colors and incorporate the international "No-Dig" symbol. This ensures that non-English speaking excavators will get the message! Use the 811 logo if you are a One-Call member in the United States.
